DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 2, 4, 5, 8, 11-14, 16, and 29-31 are rejected under 35 U.S.C. 102(e) as being anticipated by Bissonette et al. (USPN 6149535).

Bissonette et al. discloses a golf ball having a solid center, a first wound layer, a second wound layer, and a cover wherein the either wound layer may comprise threads made from thermoset or thermoplastic materials, the solid center made from polybutadiene, and the cover may be made from a thermoset or thermoplastic material (See Columns 6 through 12).

Allowable Subject Matter

Claims 17-28, 32, and 33 are allowed.

Claims 3, 6, 7, 9, 10, and 15 are objected to as being dependent upon a rejected base claim, but may be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-33 have been considered but are moot in view of the new ground(s) of rejection.
